

CHIP SHREDDER The Industry's Cleanest Cut

The CM Chip Shredder works with other CM Shredders or as a part of other systems to produce the recycling industry's cleanest cut chips. Its proven technology processes up to 15 tons of shredded tire material every hour.

Features at a glance:

- Offered in a variety of knife configurations
- High production with low maintenance
- Ability to reuse knives from existing CM machines
- Easy to integrate with existing systems – including other brands.

The Cleanest Cuts in the Tire Recycling Industry

Our patented MULTI-STACK knife design operates at extremely close tolerances which produces the industry's cleanest cut with very little exposed wire. The knives can be resharpened and reused which significantly increases lifespan and decreases costs.
