

SINGLE-SPEED TIRE SHREDDER Rugged & Ready

The CM Single Speed Tire Shredder is specifically designed to process whole steel belted radial passenger and SUV tires into specifically sized chips. Able to process up to 900 passenger tires per hour; it's rugged enough to cut whole tires, including steel-belted radials, in just one step.

Turnkey Ready

This turnkey whole tire-to-chip system includes all stands, platforms and conveyors and comes completely pre-wired — to quickly have you up and operational. And since it's designed for simplicity, you can keep your labor cost down to a minimum.

Features at a glance:

- Utilizes CM's Patented Knife Design
- Single-speed drive ensures energy efficient operation
- Low maintenance
- Patented internal classification and recirculation systems allow easy monitoring of performance
- Includes stands, platforms and conveyor systems
- Offered in Stationary and Mobile configurations

The Cleanest Cuts in the Tire Recycling Industry

Our patented MULTI-STACK knife design operates at extremely close tolerances which produces the industry's cleanest cut with very little exposed wire. The knives can be resharpened and reused which significantly increases lifespan and decreases costs.

Whole Tire Production Rates

Primary Shred	10 to 15 tons / hour
2" (50mm) Chip Size	8 to 9 tons / hour
1 1/2" (38mm) Chip Size	5 to 6 tons / hour
1" (25mm) Chip Size	3 to 4 tons / hour
