

# MORBARK® BEEVER™ M6R

## BENEFITS

- Ideal for rental yards, landscapers, golf courses, pruning crews, orchard maintenance and homeowners, this compact, portable machine provides powerful chipping action.
- The feed system with 23ci hydraulic motor generates more than 2,000 lb./ft. of materials pulling force for easy feeding.
- The small, lightweight design makes the machine simple to use with minimal moving components.
- The 12" (31 cm) diameter, two-knife machined chipping rotor with removable drum shaft is a highly durable cutting system that will provide years of trouble-free and reliable service.
- Like all Morbark equipment, the M6R is a long-lasting, durable machine backed by a world-class parts and service support team.

### Belt Drive

Direct drive with belt power transfer eliminates clutch components and over center belt tensioning systems, reducing problem areas and easing maintenance burdens.

### Hydraulic Drum Brake

Exclusive hydraulic drum brake reduces rotor stop time when engine is keyed off, bringing the chipping rotor to rest within seconds.

### 180° Swivel Discharge

180° silo swivel discharge puts chips right where they're needed without removing the Beever from the tow vehicle.

### Infeed

The 66-cubic-inch infeed throat opening allows for safer feeding and reduced labor for trimming.

## SPECIFICATIONS

SPECIFICATIONS MAY VARY WITH EQUIPMENT OPTIONS 5/14/12

### General

Chipping capacity	6"
Height	6'5 1/2"
Width	4'4"
Length (transport)	13'5"
Length (operating)	14'3 1/2"
Gross weight	1,880 lbs.
Suspension	1,800 lb. torsion
Infeed opening	30" wide x 22" high
Throat opening	11" wide x 6" high
Drum	10 1/2" wide x 13 1/2" diameter
Engine	Kohler
Horsepower	27 HP
Fuel capacity	6 1/2 gallons
Hydraulic capacity	6 1/2 gallons
Frame	1 1/2" x 3" Tubular
Tires	20.5 x 8 x 10
Hitch	2" Ball

### Equipment Highlights

Direct drive with belt power transfer  
 Exclusive hydraulic drum braking system  
 Automatic feed system  
 Reversible feed works control bar and dual safety cables  
 13 1/2" diameter x 10 1/2" wide machined chipping rotor with two dual-edged chipper knives  
 Single top feed wheel compression system with spring-assisted down pressure  
 Folding infeed tray  
 180° Silo swivel discharge with adjustable discharge flipper  
 Morthane Paint System: A chemically cured, electrostatically applied urethane coating with high-gloss finish, built in UV protection, chip and chemical resistance and corrosion protection

### Additional Features

Swing-away front jack with castor wheel  
 Fuel tank sight gauge, drain plug and shut-off valve  
 Hydraulic reservoir sight gauge, shut-off valve, drain plug, clean-out cover and vented filter head assembly with dipstick to check oil levels

### Options

Variable speed flow control  
 Custom paint and logo packages  
 Knife saver tool  
 Material pushing tool  
 Spare tire with rim  
 Spanish and English safety decals
