CM-CT 6 Self Propelled Compost Turner (6 Meter) Ritlee

Well Proven with big compost producer in Gauteng!

Features:

Production:

- * 900m³ per hour(This is totally on product being turned)
- * High production throughout compost row with turner giving exceptional mixing, breaking up of anaerobic clusters, fluffing of material, exposing of compost to fresh air in order to expell CO² and high temperatures

Construction:

- * Exceptionally robust construction with corrosion resistant lining
- Dynamic jockey wheel stabilisation system which reduces stress throughout body when on undulating conditions.

Operation:

- * Has easy access ladder, stable and secure platforms with secure railings
- * Strategically positioned over work, ideal visibility, comfortable, climate controlled cabin
- * High and low range speed control
- * Electronic management system with failsafe E-Stop curcuit
- * Comfortable operator seat with control panel and joy stick controls

Drum:

- * Hydraulically adjustable drum height

July,2022

Specifications:

Size & Weight

- * 8720mm x 6530mm x 5000mm High 7500 kg

Power Fitted

- * 250 to 280 kW Diesel Water cooled

Drum Width

- * 6000mm

Drum Drive

- * Adjustable speed control in operator cab

Production:

- * 900m³ per hour Depending on material turned

Compost Row

- * 2,4 meter high X 5,7 meter wide triangular profile

Hydraulic System

- * Max flow: 500 lpm
- * Max pressure: 300 bar
- * System oil volume 170 Litre

Optionals:

Lighting

- * Cab, work surround and row illumination

Water application

- * Will be fitted as required upon request!
